

Dear Vickie,

Even tho Jimmy isn't there I see no reason why I shouldn't write to just you. We have received two tapes and it is really great hearing about your trip and the delicious food you eat. I am sure Carolyn had a wonderful time and I hope her luggage arrived.

Mike is here every week-end and will be here the whole month of October thru the election in Nov. I just received his pretty red sport shirt this morning by splashing some colors on it. I don't know if I should like it or tell him about it.

I wonder if Mary will really move back here the first of the year. Deine loves her neighborhood and school and it is too bad they have to give up their house. Mike thinks Mary should stay there but I am staying out of the decision completely. All the Miles feels think it is terrible of Mary to leave there.

Mary is going to school two mornings a week which is perfect for her since Jessie is in school then.

Our weather is like the London temperatures, but it is still terribly hot and humid in the Wash. D.C. area.

Your trip to Greece is very exciting to think about and I am glad you and Jimmie are seeing so many interesting places. We loved your letter.

Love,

Helen
